2. The Inspector General, in reference c., and the Acting Deputy Director (Administration), in reference b., both conclude that the facts in this case do not warrant charges against [REDACTED] for wilful misappropriation of Government property.

3. Although the Inspector General, in reference c., recommends that the "entire file be transmitted to the Director of Security and he be asked as to whether the background of the case is such that a technical interview appears to be warranted," I am not convinced that this would serve a useful purpose. Inasmuch as the property in question has been returned to Government sources and since the Deputy Director (Administration) has no command jurisdiction over [REDACTED] any further action would appear to be the responsibility of the Office of Personnel or the organizational component to which [REDACTED] is assigned.
